

CRS Business Systems

CRS Business Systems launch a new Point of Sale application

Dec 2010

CRS TOUCH

After months in design and development CRS Business Systems are proud to announce the release of their new Point of Sale application CRS TOUCH.

Designed to meet the requirements of Hospitality, Retail and Charity environments CRS TOUCH can be configured to suit your business.

From the outset CRS TOUCH has been designed as a Touchscreen application so buttons are bold and large to enable ease-of-use and negate the need for an unsightly keyboard or mouse attached to your system.

Standard specifications include:

- Multiple clerk sign on methods
- Security levels set per user
- Unlimited configurable screen layouts
- Unlimited Groups/Dept`s/Product`s
- Unlimited clerks
- Unlimited tender types
- Graphical image for screens and buttons

Configurable options include:

- Gift Aid module for Charities
- Stock Control option
- Loyalty option
- Barcode label printing
- Shelf edge label printing
- Postcode verification
- Basic customer accounts option
